PETITION TO THE U.S. CONGRESS
Medicare Payment Reform Needed Now!

As a constituent and patient, I want to let you know I'm worried the upcoming cut in Medicare payments will prevent my primary care physician from taking care of Medicare patients like me and others in my family. I know that unless Congress acts, my primary care physician will be hit with a decrease of more than 10 percent in Medicare payments after July 1. Please help primary care physicians like my doctor keep the doors open to their practice. Stop the Medicare payment rate cut by July 1.
