

March 12, 2015

The Honorable John Boehner  
Speaker of the House  
U.S. House of Representatives  
Washington, DC 20515

The Honorable Mitch McConnell  
Majority Leader  
U.S. Senate  
Washington, DC 20510

The Honorable Kevin McCarthy  
Majority Leader  
U.S. House of Representatives  
Washington, DC 20515

The Honorable Harry Reid  
Minority Leader  
U.S. Senate  
Washington, DC 20510

The Honorable Nancy Pelosi  
Minority Leader  
U.S. House of Representatives  
Washington, DC 20515

Dear Speaker Boehner, Leader McCarthy, Leader Pelosi, Leader McConnell, and Leader Reid:

On behalf of the 115,900 members of the American Academy of Family Physicians, and the undersigned organizations representing family physicians in 49 states and the District of Columbia, we urge you to repeal the Medicare Sustainable Growth Rate (SGR) formula and replace it with a payment system that emphasizes value-based health care delivery. As the organizations representing the largest number of primary care physicians, we write to encourage Congress to take immediate action on this critical issue.

Congress must act before March 31, 2015, to avert a 21-percent physician payment cut from going into effect. The current payment system must be changed to reflect the importance of physicians and the value of primary care. The first step in accomplishing this goal is repealing the flawed SGR formula.

Last year, the AAFP supported the bipartisan, bicameral bill that would have repealed the SGR and provided a clearly defined path to permanent payment reform. The bill failed to pass Congress due to disputes over the budget offsets, and another “doc-fix” postponed the SGR cliff until March 31, 2015.

Since 2003, Congress has had to override the SGR formula a total of 17 times. The cost to Medicare of these short-term patches is estimated to be approximately \$169.5 billion. Because of the additive nature of the formula, payment rate decreases are projected for many years into the future to account for this accumulated debt. While we are appreciative of actions taken to prevent deep cuts in physician payments, yearly or even monthly short-term patches to the formula, when coupled with escalating costs associated with operating a medical practice, create an unstable program for our members and the patients they care for. Instability makes it more challenging for family physicians to transform their practices into patient-centered medical homes, and make other critical investments to serve Medicare patients. This is why family medicine has advocated for repeal and replacement of the SGR for several years – so the primary care delivery system can flourish through innovation unencumbered by a flawed payment structure and can be better situated to provide quality care to patients.

The opportunity to make a major improvement in the delivery of health care and the quality of care provided to all patients arises infrequently. We urge you, as leaders of the United States Senate and House of Representatives to repeal the Medicare Sustainable Growth Rate (SGR) formula and replace it with a payment system that emphasizes quality-based health care delivery before March 31. We urge you to avoid additional short-term solutions and place the highest priority on a permanent solution. Family medicine stands ready to provide any assistance you need.

Sincerely,
